Under the Guidance of

Ms. P. Revathy, MCA., M.Phil.,

Assistant Professor

PG & RESEARCH DEPARTMENT OF COMPUTER SCIENCE

SRI RAMAKRISHNA COLLEGE OF ARTS & SCIENCE

AUTONOMOUS | Co-Ed, Ranked 76th by NIRF 2025

AICTE & UGC approved,

An ISO 9001:2015 Certified,

Affiliated to Bharathiar University

Coimbatore – 641 006

JUNE 2026

CERTIFICATE

This is to certify that the mini project work entitled

Airline Analysis Using Data Analytics

is a bonafide record of work done by

Tharrun S

24106058

in partial fulfilment for the award of the degree of

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

of Bharathiar University during

APRIL - MAY 2026

Head of the Department

Dr. G. Maria Priscilla, M.Sc., M.Phil., Ph.D.,

Associate Professor & Head,

PG & Research Department of

Computer Science,

Sri Ramakrishna College of Arts & Science.

Faculty Guide

Ms. P. Revathy, MCA., M.Phil.,

Assistant Professor

PG & Research Department of

Computer Science,

Sri Ramakrishna College of Arts & Science.

Submitted for the viva-voce examination held on _____

INTERNAL EXAMINER

EXTERNAL EXAMINER

CERTIFICATE

CERTIFICATE OF PROJECT COMPLETION

This certificate is proudly presented to

THARRUN S

Has successfully completed the Data Analytics Project from April 20 to May 20, gaining practical experience in data collection, data cleaning, data visualization, statistical analysis, dashboard creation, report generation, and deriving actionable insights from datasets. During the project, the candidate demonstrated strong analytical thinking, problem-solving, data interpretation, and technical implementation skills while contributing effectively to data-driven projects, trend analysis, performance monitoring, and the development of accurate, insightful, and business-oriented analytical solutions.

ORGANIZATION PROFILE

Edu Tantr

Edu Tantr is a professional training and technology organization based in **Koramangala, Bangalore, Karnataka**, dedicated to bridging the gap between academic learning and industry requirements. The organization specializes in providing high-quality training, and internship opportunities in emerging technologies of **Data Analytics, and Full Stack Development**.

Edu Tantr aims to equip students and young professionals with practical knowledge through hands-on projects, real-world case studies, and industry-oriented mentorship. The organization emphasizes experiential learning, enabling interns to develop technical, analytical, and problem-solving skills that prepare them for professional careers.

The company offers structured internship programs with stipend where participants gain exposure to industry-standard tools, technologies, and workflows. These programs help students understand real-world business challenges and apply analytical techniques to derive meaningful insights from data.

During the internship, interns work under the guidance of experienced mentors on practical projects that enhance their understanding of data analysis, visualization, reporting, and business intelligence. The learning environment at Edu Tantr encourages innovation, teamwork, continuous learning, and professional development.

Today, Edu Tantr continues to support aspiring professionals by providing quality technical education and industry exposure, helping them build successful careers in the rapidly evolving technology sector.

Vision

To empower students and professionals with industry-relevant technical skills and practical knowledge, enabling them to become competent and innovative professionals in the global technology industry.

Mission

- To provide industry-oriented internship programs.
- To bridge the gap between academic education and industry expectations.
- To develop analytical thinking, problem-solving abilities, and technical expertise among learners.
- To prepare students for successful careers in emerging technologies.

ABSTRACT

This internship report presents the knowledge and practical experience gained during a **two-month Data Analyst Internship** at **Edu Tantr, Koramangala, Bangalore**. The internship was designed to provide industry-oriented exposure to the field of **Data Analytics**, enabling the application of theoretical concepts to real-world business problems through hands-on learning and project implementation.

During the internship, I worked on the project titled "**Airline Analysis Using Data Analytics**." The project involved analysing airline datasets to identify trends, evaluate operational performance, and generate meaningful insights that support data-driven decision-making. Various data analytics techniques were applied to clean, organize, visualize, and interpret the data, helping to understand factors influencing airline operations and overall performance.

The internship enhanced my technical skills in data analysis, data visualization, problem-solving, and analytical thinking while providing practical experience with industry-relevant tools and methodologies. It also strengthened my ability to transform raw data into valuable business insights and present findings in a structured and professional manner.

In recognition of my performance and successful completion of the internship, I was awarded a **stipend of ₹25,000**, reflecting the value of my contributions and dedication throughout the internship period.

Overall, this internship was a valuable learning experience that combined theoretical concepts with practical implementation. It enhanced my understanding of the complete data analytics lifecycle, strengthened my technical and professional skills, and prepared me for future opportunities in the rapidly growing field of Data Analytics. The knowledge and experience gained through this internship will serve as a strong foundation for my academic growth and future professional career.
