PROJECTS

HUMAN RESOURCE MANAGEMENT SYSTEM

A Human Resource Management System (HRMS) is a software application that helps organizations manage employee information and automate HR-related tasks. It centralizes employee data, simplifies administrative processes, and improves workforce management. HRMS reduces manual work, enhances accuracy, and supports better decision-making through organized data and reporting.

EVENT BOOKING APP

An Event Booking App is a web application that allows users to discover, browse, and book tickets for various events such as movies, concerts, sports, theatre shows, and festivals. The application provides event details, schedules, venues, seat selection, and booking confirmation through an easy-to-use interface.
